Religious Studies 490: Senior Seminar NEW RELIGIOUS MOVEMENTS

A Reader in a Christian Science church is a member of the congregation who has been elected to serve in one of two positions responsible for church services. Each week's sermon in Christian Science churches is outlined in the *Christian Science Quarterly*, prepared months in advance, and is the same in all Christian Science churches, worldwide. A lay church, the congregation elects readers from the congregation and they serve as readers for a period of time; the sermons consist of passages from the

Western Buddhist Order.

What is a cult? Why do they emerge? Who joins them? And why do tragedies such as Waco and Jonestown occur? This reader brings together the voices of historians, sociologists, and psychologists of religion to address these key questions about new religious movements. Looks at theoretical explanations for cults, why people join and what happens when they do. Brings together the best work on cults by sociologists, historians, and psychologists of religion. A broad-ranging, balanced and clearly organized collection of readings. Includes coverage of topical issues, such as the 'brainwashing' controversy, and cults in cyberspace. Section introductions by the editor situate the nature, value, and relevance of the selected readings in context of current discussions.

New Religious Movements is a highly unique volume, bringing together primary documents conveying the words and ideas of a wide array of new religious movements (NRMs), and offering a first-hand look into their belief systems. Arranged by the editors according to a new typology, the text allows readers to consider NRMS along five interrelated pathways—from those that offer new perceptions of existence or new personal identities, to those that center on relationships within family-like units, to those movements that highlight the need for recasting the social order or anticipate the dawn of a new age. The volume includes original documents from groups such as the Unification Church, Theosophy, Branch Davidians, Wicca, Jehovah's Witnesses, Santeria, and Seventh Day Adventists, as well as many others. Each section is prefaced by a contextual introduction and concludes with a list of sources for further reading. New Religious Movements offers a rare inside look into the worldviews of alternative religious traditions.

religious movements of our day, from the Church of Jesus Christ of Latter-day Saints and the Jehovah's Witnesses to contemporary versions of Hinduism, Buddhism and Islam.

Organized in chronological order of the founding of each movement, this documentary reader brings to life new religious movements from the 18th century to the present. It provides students with the tools to understand questions of race, religion, and American religious history. Movements covered include the Church of Jesus Christ of Latter-day Saints (Mormonism), the Native American Church, the Moorish Science Temple, the Nation of Islam, and more. The voices included come from both men and women. Each chapter focuses on a different new religious movement and features: - an introduction to the movement, including the context of its founding - two to four primary source documents about or from the movement - suggestions for further reading.

A comprehensive and authoritative guide to over 200 new religions, sects and alternative spiritualities

He also analyzes controversial issues such as the accusations of brainwashing and sexual deviance that are sometimes made against cults; discusses why cults sometimes turn to violence; and examines what NRMs can tell us about the future of religion and culture in North America. The result is a comprehensive, evenhanded introduction to the study of new religious phenomena."--BOOK JACKET.

The study of New Religious Movements (NRMs) is one of the fastest-growing areas of religious studies, and since the release of the first edition of *The Oxford Handbook of New Religious Movements* in 2003, the field has continued to expand and break new ground. In this all-new volume, James R. Lewis and Inga B. Tøllefsen bring together established and rising scholars to address an expanded range of topics, covering traditional religious studies topics such as "scripture," "charisma," and "ritual," while also applying new theoretical approaches to NRM topics. Other chapters cover understudied topics in the field, such as the developmental patterns of NRMs and subcultural considerations in the study of NRMs. The first part of this book examines NRMs from a social-scientific perspective, particularly that of sociology. In the second section, the primary factors that have put the study of NRMs on the map, controversy and conflict, are considered. The third section investigates common themes within the field of NRMs, while the fourth examines the approaches that religious studies researchers have taken to NRMs. As NRM Studies has grown, subfields such as Esotericism, New Age Studies, and neo-Pagan Studies have grown as distinct and individual areas of study, and the final section of the book investigates these emergent fields.
