Avul Pakir Jainulabdeen Abdul Kalam, The Son Of A Little-Educated Boat-Owner In Rameswaram, Tamil Nadu, Had An Unparalleled Career As A Defence Scientist, Culminating In The Highest Civilian Award Of India, The Bharat Ratna. As Chief Of The Country'S Defence Research And Development Programme, Kalam Demonstrated The Great Potential For Dynamism And Innovation That Existed In Seemingly Moribund Research Establishments. This Is The Story Of Kalam'S Rise From Obscurity And His Personal And Professional Struggles, As Well As The Story Of Agni, Prithvi, Akash, Trishul And Nag--Missiles That Have Become Household Names In India And That Have Raised The Nation To The Level Of A Missile Power Of International Reckoning.

Autobiography of an Indian scientist.

The definitive biography of India's most loved leader and scientist Aeronautical engineer, rocket scientist, missile man, visionary, teacher and the most inspiring head of state in living memory - Avul Pakir Jainulabdeen Abdul Kalam was all these and more. Unquestionably the most revered Indian leader since Mahatma Gandhi, he transcended all the boundaries and obstacles that came his way in the course of a remarkable life; and he did so with grace and humility.Arun Tiwari tells Dr Kalam's life story with a deep understanding of his formative experiences and character and reveals him as a man personifying all the glory and paradoxes of his nation: secular and religious; exalted and humble; schooled and unaffected; dynamic and calm; scientific and spiritual - an Indian above all.

What is it that we as a nation are missing? Why, given all our skills, resources and talents, do we settle so often for the ordinary instead of striving to be the best? At the heart of Ignited Minds is an irresistible premise: that people do have the power, through hard work, to realize their dream of a truly good life. Kalam's vision document of aspiration and hope motivates us to unleash the dormant energy within India and guide the country to greatness.

Dr. A. P. J. Abdul Kalam had a great belief in the power of the youth. He met over 21 million children and young people in India and outside and spoke to them about the power of knowledge, ambition, moral behavior and the need to bring about change in society. He travelled to almost every corner of the country meeting the youth in schools, universities and institutions and interacted with them like a committed teacher. In Learning How to Fly some of his nearly 2, 000 lectures have been compiled. These lectures were addressed to teachers and students in school and beyond. In each one of them he has spoken about preparing oneself best for life, to identify and overcome challenges and how to bring out the best within each individual. Through stories from his own life, those of his teachers and mentors as well as stories of some of the greatest men and women of the world and the latest developments in science and technology, he shows us the importance of dreams and the hard work needed to turn those dreams into reality. Filled with warmth, inspiration and a positive attitude, Learning How to Fly is essential reading for every Indian, young and old.

Dr.A.P.J.Abdul Kalam's Autobiography narrated by Girish Karnad

It was like any other day on the Anna University campus in Chennai. As I was returning to my room in the evening, the vice-chancellor, Prof. A. Kalanidhi, fell in step with me.Someone had been frantically trying to get in touch with me through the day, he said. Indeed, the phone was ringing when I entered the room.When I answered, a voice at the other end said, 'The prime minister wants to talk with you.' Some months earlier, I had left my post as Principal Scientific Adviser to the Government of India to return to teaching. Now, as I spoke to the PM, Atal Bihari Vajpayee, my life was set for an unexpected change.Turning Points takes up the incredible Kalam story from where Wings of Fire left off. It brings together details from his career and presidency that are not generally known as he speaks out for the first time on certain points of controversy. It is a continuing saga, above all, of a journey - individual and collective - that will take India to 2020 and beyond as a developed nation.

With knowledge, spirit, good humor, and passion, THE AUTOBIOGRAPHY OF MARTIN LUTHER KING, JR. brings to life a remarkable man whose thoughts and actions speak to our most burning contemporary issues and still inspire the desires, hopes, and dreams of us all. Written in his own words, this history-making autobiography is Martin Luther King: the mild-mannered, inquisitive child and student who chafed under and eventually rebelled against segregation; the dedicated young minister who continually questioned the depths of his faith and the limits of his wisdom; the loving husband and father who sought to balance his family's needs with those of a growing, nationwide movement; and the reflective, world-famous leader who was fired by a vision of equality for people everywhere. Relevant and insightful, THE AUTOBIOGRAPHY OF MARTIN LUTHER KING, JR. offers King's seldom disclosed views on some of the world's greatest and most controversial figures: John F. Kennedy, Malcolm X, Lyndon B. Johnson, Mahatma Gandhi, and Richard Nixon. It also paints a rich and moving portrait of a people, a time, and a nation in the face of powerful change. Finally, it shows how everyday Americans from all walks of life confronted themselves, each other, and the burden of the past-and how their fears and courage helped shape our future.

This Book Is An Account Of How Dr. Kalam Visualizes Information And Communication Technology Mining The Rural Talent. Here, Dr. Kalam Present His Dream Of Schools In India At 2020 As Symbiotic Nerve Centres Connecting Teachers, Students And Community; Personifying Knowledge That Exists In The World. He Also Makes A Clarion Call To Accelerate The Process Of Societal Transformation. This Would Involve Raising The Standards Of Governance And Safeguarding The Sanctity Of Public Institutions. The Book Uses The Metaphor Of A Tree To Describe The Process Of Knowledge Bearing Fruits Of Prosperity In The Contemporary Globalised World Where Different Phases, Formative, Adult Working Life, And Post-50 Experienced Senior Citizens, Call For Different Kinds Of Learning. The Book Refers To A Contextual Contribution Of A Large Number Of Indian Scientists And Artists And Proves That There Is No Age Bar To Blossom. He Advocates Creation Of Conditions That Favour Growth Of Diverse Individual Talents Akin To Agarden And Calls For A Scientific Mind-Set Guided By Conscience, Consensus And By Actions That Take Our Social And Moral Values Into Account In Building Our Own Systems.
