"This book presents cases on theory, research, and practice in the areas of technology transfer, innovation, and commercialization, offering illustrations and examples of entrepreneurial successes and pitfalls in university, industry, government, and international settings"--Provided by publisher.

Research Paper (postgraduate) from the year 2020 in the subject Business economics - Business Management, Corporate Governance, grade: A, , course: Masters of Business Administration, language: English, abstract: India experiences big difficulties with its high degrees of joblessness among the youth particularly college graduates as a result of the absence of work experience, decreased capabilities base, as well as higher education. The main problem handled in our financial scenario is the rate, the price is high in India contrasted to all different other nations, most of the grads are currently out of work otherwise working in a company which not attached to their core. The emphasis of the research hops on just how the mindset differs from a single person to an added on the appeal of entrepreneurship as work as well as to study the partnership between the business point of view along with the business opportunities-entrepreneurial atmosphere. The researcher applied descriptive research design and the population of the study is engineering college students studying in engineering colleges affiliated to Anna University. List of colleges offering Engineering Programme in Coimbatore district affiliated to Anna University was obtained from the Anna University website. The sample design adopted for the study is systematic random sampling with a total sample size of 400. The findings of the study reveals that factors towards entrepreneurship significantly influence the overall parental factors attitudes towards entrepreneurship

"This book will serve as an integrated e-business knowledge base for those who are interested in the advancement of e-business theory and practice through a variety of research methods including theoretical, experimental, case, and survey research methods"--Provided by publisher.

This book is designed in accordance with the syllabus of University of Madras for Corporate Accounting, taught in B. Com, Semester-III. Written in a simple language, the book provides right blend of theory, illustrations and exercises. The book includes wide variety of questions as per Madras University examination pattern (Parts A, B and C).

About the Book: Of late, academicians of technical education have felt the importance of "Management" and "Entrepreneurship". Engineers need to manage their departments/sections/subordinates, and Entrepreneurship helps the large pool of technical manpower in developing small-scale industries in high tech areas thereby contributing to the economy of the country. This book covers both 'Management' and 'Entrepreneurship'. The first chapters of this book deal with Management, Planning, Organizing and Staffing, Directing and Controlling. The last four chapters deal with Entrepreneurship, Small-Scale Industries, Institutional support and Project formulation. Adequate number of simple examples with which the students are familiar are included in each chapter. In addition, each chapter contains student learning activities to give the readers a chance to enhance the learning process. Though the book is written keeping in mind the syllabus of Visvesvaraya Technological University, yet it is useful for B.Com, BBM, DBM, PGDBM and MBA students also. Contents: Management Planning Organizing and Staffing Directing and Controlling Entrepreneurship Small-Scale Industries Institutional Support Preparation of Project.

This book highlights the impacts of COVID-19 on the global economy, at a time when the world economy has experienced large demand and supply shocks. To limit the transmission of the corona virus, all governments shut down production, restricted movement of people, etc, which led to severe curtailment in demand, and disruptions in supply chains all over the world. The COVID-19 pandemic has dragged the world economy into an abrupt and unforeseen recession. According to IMF estimates, world GDP will fall by over 3 percent due to the outbreak of this pandemic - the steepest slowdown since the Great Depression of the 1930s. The ILO has predicted a loss of about 25 million jobs due to this pandemic. Emerging markets will lose at least 2.4 percent of their GDP in 2020 alone. Loss in global travel revenue due to COVID-19 is estimated at USD 810.7 billion. Financial markets have been badly hit and about USD 83 billion has been pulled out of developing markets since the outbreak of COVID-19. The list of sectors impacted by the COVID-19 outbreak, is endless All governments have announced stimulus packages comprising a mix of fiscal and monetary measures, but it is difficult to predict how quickly businesses will respond to these measures. The papers in this book, which are the proceedings of an online global conference, have attempted to analyze and summarize the thoughts of academicians on these vexed issues.

Information technology (IT) has brought about a major shift in the nature and speed of knowledge processing, thereby transforming the way business and, indeed, governments, function. An integral aspect of social capital, IT can either be an empowering force for the marginalized, or be instrumental in creating a new dimension of inequality. Harnessing IT for effective socio-economic transformation into an epistemic society has created a need to revisit prevailing notions of governance and development in the country, which is confronted with resource constraints and a yawning digital divide. Conceived against this background, this volume consists of 21 chapters written by authorities responsible for planning and implementing IT in India, including the President of India, H.E. Dr A P J Abdul Kalam, senior government officials, IT professionals and scholars. The volume contains case studies of the application of IT in India, both in agriculture and in improving public service delivery systems.

There are many potential, passionate, energetic and hard working fresh MBA passouts and MBA students who aspire to get placed like the students of top B-schools, but unfortunately they may not find the right guidance. To such youngsters, this book makes a humble attempt to: · Brief why Top B-school students are offered challenging & lucrative jobs · List the key competencies & values sought by Organizations which offer challenging & lucrative job offers to Top B- school passouts · Tips on how to improve the competencies & values which are sought by the Organizations who offer challenging & lucrative jobs. · How to showcase it to Organizations & win such challenging & lucrative jobs. · Tell MBA students & fresh MBA passouts that they can perform on par & even excel the fresh passouts of much celebrated Top B-Schools if they put right efforts. In a direct, face-face interview, Ms. Priyanka Pankajam.I. A. S (Assistant collector-Coimbatore district, Former Business Consultant at KPMG, Former Assistant commissioner –Income Tax and IIM-B Alumnus- 2006-08 batch, [please refer page 66 to find her detailed profile]) shared the list of key competencies & values sought by Organizations which offer challenging & lucrative job offers to Top B-school students. She has also shared tips on how to improve the competencies & values which were mentioned by her. Later in other direct, face-face interview, Ms. Shyleswari. M. Rao (Executive Business coach, OD Consultant, 1st woman licensed Human element practitioner [LHEP] in India, Professional member & Former regional coordinator of ISABS [Indian Society of Applied Behavioural Science Training professional with decades of experience, [Please refer page 63 to find her detailed profile] has shared her valuable suggestions on how to improve the list of key competencies & values. The book also carries the views expressed by eminent scholars, Academicians and Management practitioners which are mentioned in the books authored by them. I have tried the best to keep the book slim & leaner, whereby it can be handy to carry and easy to refer.

In recent years, the pace of technological growth—from the very first stages of research and development to full-scale industrial implementation—has quickened at an exponential rate. To better keep pace with rapidly-changing market demands, the gap between university research incubators and public-sector start-up companies has undergone a marked contraction. *Competitive Strategies for Academic Entrepreneurship: Commercialization of Research-Based Products* seeks to fill the gap in research between universities and the public, and offers cutting-edge insight into the current state of the field. Charting a course that moves from discussions of academic resistance and implications for knowledge-transfer theory to current case-studies of academic/industrial launch-pads like COTEC's Technology Commercialization Accelerator and the Maryland Industrial Partnerships program, this publication targets an audience of academicians, administrators, researchers, entrepreneurs, and established professionals, and seeks to provide insight into the mechanisms by which the research of today becomes the household names of tomorrow.
