There are an estimated 600,000,000 passenger cars in the world, and that number is increasing every day. So too is Earth's supply of parking spaces. In some cities, parking lots cover more than one-third of the metropolitan footprint. It's official: we have paved paradise and put up a parking lot. In *ReThinking a Lot*, Eran Ben-Joseph shares a different vision for parking's future. Parking lots, he writes, are ripe for transformation. After all, their design and function has not been rethought since the 1950s. With this book, Ben-Joseph pushes the parking lot into the twenty-first century. Ben-Joseph shows that parking lots can be aesthetically pleasing, environmentally and

Architecturally responsible, and used for something other than car storage. He introduces us to some of the many alternative and nonparking purposes that parking lots have served -- from RV campgrounds to stages for "Shakespeare in the Parking Lot." He shows us parking lots that are lushly planted with trees and flowers and beautifully integrated with the rest of the built environment. With purposeful design, Ben-Joseph argues, parking lots could be significant public places, contributing as much to their communities as great boulevards, parks, or plazas. For all the acreage they cover, parking lots have received scant attention. It's time to change that; it's time to rethink the lot.

The Hillman Imp divides opinions perhaps more sharply than any other

car in British motoring history. You either love it or hate it. The Rootes Group's answer to the BMC Mini, the Hillman Imp was built in a purpose-built factory in Linwood, Glasgow, and it was hoped that it represented the beginning of a new era for the Scottish motor industry. With the help of interviews with key members of the design team, and unprecedented research of official papers, the story of the design and development of this quirky little car is set against the complex commercial and political intrigue that surrounded it, making this book not just the story of a car but a fascinating insight into an industry in crisis.

More than a decade after LBJ left office, researchers began to open up the Johnson administration as an

Project 500 important area of scholarly study. Exploring the Johnson Years is an invaluable introduction to that administration and to the LBJ Library's more than thirty million separate documents. The contributors cover every major aspect of the Johnson presidency, from Vietnam (George C. Herring) to the War on Poverty (Mark I. Gelfand), including coverage of Latin American policy (Walter LaFeber), education (Hugh Davis Graham), civil rights (Steven F. Lawson), the nature of the White House staff (Larry Berman), and Johnson's stormy relationship with the media (David Culbert). The essays illuminate some of the most important files and show how they can be used to further historical understanding of the Johnson years. As a result, scholars who plan to use the library

will have a useful guide before they begin, while general readers will be able to discover the ways in which the library's holdings relate to the existing body of literature on the Johnson administration.

Colombia's status as the fourth largest nation in Latin America and third most populous—as well as its largest exporter of such disparate commodities as emeralds, books, processed cocaine, and cut flowers—makes this, the first history of Colombia written in English, a much-needed book. It tells the remarkable story of a country that has consistently defied modern Latin American stereotypes—a country where military dictators are virtually unknown, where

the political left is congenitally weak, and where urbanization and industrialization have spawned no lasting populist movement. There is more to Colombia than the drug trafficking and violence that have recently gripped the world's attention. In the face of both cocaine wars and guerrilla conflict, the country has maintained steady economic growth as well as a relatively open and democratic government based on a two-party system. It has also produced an impressive body of art and literature. David Bushnell traces the process of state-building in Colombia from the struggle for independence, territorial consolidation, and reform in the nineteenth century to economic development and social and political democratization in the twentieth. He also sheds light on the modern history

Warning: This erotica contains scenes and elements that may be disturbing to some readers. Please review the full content warning below. Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The "freak," Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to

humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? This book contains intense fantasy scenes of hard kinks/edgeplay, graphic sex, and harsh language. It is intended only for an adult audience. Beware: this is a dark, weird, kinky read. The activities depicted therein are dangerous and are not meant to be an example of realistic BDSM. Reader discretion is advised. World History: Journeys from Past to Present uses common themes to present an integrated and comprehensive survey of human history from its origins to the present day. By weaving together thematic and regional perspectives in coherent chronological narratives, Goucher and Walton transform the overwhelming sweep of the human past into a truly global story that is relevant to the contemporary issues of our time. Revised and updated throughout, the second edition of this innovative textbook combines clear chronological progression with thematically focused chapters divided into six parts as follows: PART 1. EMERGENCE

(Human origins to 500 CE) PART 2.  
ORDER (1 CE-1500 CE) PART 3.  
CONNECTIONS (500-1600 CE) PART  
4. BRIDGING WORLDS (1300-1800  
CE) PART 5. TRANSFORMING  
LIVES (1500-1900) PART 6.  
FORGING A GLOBAL COMMUNITY  
(1800- Present) The expanded new  
edition features an impressive full-  
color design with a host of illustrations,  
maps and primary source excerpts  
integrated throughout. Chapter  
opening timelines supply context for  
the material ahead, while end of  
chapter questions and annotated  
additional resources provide students  
with the tools for independent study.  
Each chapter and part boasts  
introductory and summary essays that  
guide the reader in comprehending the  
relevant theme. In addition, the  
companion website offers a range of
