Although many modellers can master the basic techniques of construction, it is with the painting and finishing of their kits that many begin to struggle. It is this skill that gives the model its distinctive look and feel and separates the good model from the truly great one. This title presents a detailed, step-by-step approach to addressing the difficulties involved in creating realistic, colourful finishes to armour and aviation models using a variety of different media and techniques. Aimed at both the beginner and the intermediate modeller looking to improve their skills, this chapter-by-chapter guide offers something for everyone.

380 pages . More than 2.500 images This book is a compilation of aircraft scale modelling techniques, step by step guides with hundreds of colour pictures for WWI, WWII, coldwar and

modern aircraft, showing a wide range of painting and weathering techniques. All aspects of aircraft modelling are covered in a way that is both easy to understand and follow. From tools, and how to use various materials, to camouflage painting, markings, engines, pilots, etc. This is a must have for aircraft modelers. F.A.Q. is a compendium of the main techniques used in aircraft modelling, explained from a beginner level, through to the most complex of tasks. Created by world famous modeller, Daniel Zamarbide, and aided by the most prominent aircraft modellers in Europe.

We now introduce to you our latest publication, TANKER, and we are sure that it will herald a new global benchmark for scale modelling magazines. This new approach and concept for our new quarterly magazine, focuses on amazingly realistic paint schemes and finishes, showing you how to accomplish them. We have the very best of modellers from around the world, showing you how to master not only the very latest techniques, but also the old standards too. All this is brought to you in a thoroughly modern publication and with our own inimitable character. Each issue will be available in 8 languages, with around 100 pages. TANKER is available in English, French, German, Russian, Spanish, Czech, Chinese, and Hungarian.

Second issue, the level is even higher than in issue 1, with 104 pages dedicated to more amazing armor, with reference sections, specialized techniques, product map, and our famous school of techniques. A must have magazine for lovers of military and civilian vehicles and for modellers who love quality modelling.
