Incident Complexity Fema
Incident complexity is
considered when making
incident management level,
staffing, and safety
decisions. Incident
complexity is assessed on a
five-point scale ranging
from Type 5 (the least
complex incident) to Type 1
(the most complex incident).

ICS Review Document - FEMA
Analyzing Incident
Complexity It is important
to strike the right balance
when determining resource
needs. Having too few
resources can lead to loss
of life and property, while
having too many resources
can result in unqualified
personnel deployed without
proper supervision. A
complexity analysis can
help:
