The main advantage of Real Estate Finance and Investments is that covers a much broader set of topics than we do. Linneman also takes the time to cover topics, such as the time value of money and IRR, that we skip because of coverage in other courses on the site. So his book could be a good prerequisite for the course we offer.

Real estate finance—overview Lending against the cash flow generated by a property is the most traditional form of real estate finance. In its simplest form, it involves a loan to a borrower which is repaid from the rental income of the borrower's property. It is the most commonly used structure for investing in real estate.

investment, emphasising real estate cycles and the availability and flow of global capital Real Estate Investment remains the most influential textbook on the subject, used in top-tier colleges and universities worldwide. Its unique, practical perspective on international real estate investment focusses on real-world techniques which measure, benchmark, forecast and manage property investments as an asset class. The text examines global property markets and real estate cycles, outlines market fundamentals and explains asset pricing and portfolio theory in the context of real estate. In the years since the text's first publication, conditions in global real estate markets have changed considerably following the financial crisis of 2008-2009. Real estate asset prices have increased past pre-crisis levels, signalling a general market recovery. Previously scarce debt and equity capital
